- MS 365 suite Proficiency
- Teamwork
- Time Management
- Presentation Skills
- Effective Communication
- Organisational Skills
- Problem Solving and Analytical Skills

### WORK EXPERIENCE

*Flexisaf Edusoft Limited – Frontend Developer  
Intern (March 2025 - present)*

- Developed a dynamic MoodBot web app that integrates with RESTful APIs, enabling user sign-up/login functionality and mood tracking interface using Fetch API and asynchronous JavaScript.
- Built interactive web applications from scratch using HTML, CSS and JavaScript, including a sound-enabled drum machine with volume and toggle controls
- Collaborated with team members on Github, practicing effective version control and clean code documentation.
- Strengthened problem-solving and debugging skills using browser developer tools and console-based testing.

*3MTT Capstone Project – Frontend Developer  
Team-based project (2024)*

- Collaborated with a team to design and develop a web-based application aimed at improving communication processes.
- Built interactive and mobile-responsive user interface components using HTML, CSS, and JavaScript.
- Utilized Git for version control and maintained a clean, well-documented codebase on GitHub.
- Presented the final project to mentors and peers, explaining technical decisions and overcoming development challenges.
